A dedicated and skilled senior applications developer with a strong background in computer science, currently working at UPS. Proficient in a variety of programming languages and frameworks, including Spring Boot, Java, React, Javascript, Angular, and Node. Seeking to utilize my skills and experience to make a positive impact in a new role.

EXPERIENCE

11/07/19 – PRESENT
SENIOR APPLICATIONS DEVELOPER, UPS

- Led major application infrastructure and software upgrades while leading SCRUM practices and mentoring new developers
- Utilized new technology to support applications
- Developed a middleware application using Spring Boot APIs and Apache Karaf Camel Routes with WebLogic, WebSphere, and ActiveMQ configurations, demonstrating a strong understanding of both business and technical knowledge
- Created connection Developed automated tests using Selenium WebDriver and Citrus

EDUCATION

SPRING 2023
MASTER OF SCIENCE IN COMPUTER SCIENCE, UNIVERSITY OF LOUISVILLE

SPRING 2021
BACHELOR OF SCIENCE IN COMPUTER SCIENCE, INDIANA UNIVERSITY

TECHNICAL SKILLS

- Experience in mobile and web application development using React Native, Javascript, React, Cordova, Angular and Node
- Strong background in object-oriented programming with Java and experience with C++, C#
- Proficiency in development tools such as Eclipse, IntelliJ, Visual Studio, Visual Studio Code, Azure, Jenkins, SonarQube, Insomnia, TFS, and GitHub, JFrog Repository
- Experience using MySQL, PostgreSQL, Microsoft SQL Server, MongoDB, and H2
- Message routing development using the Camel Framework, Spring Boot, Java, Restlet, ActiveMQ, and WebLogic

APPLIED SKILLS

- Developed integration patterns using the OSGI framework (Message ordering, Queuing, etc.) and the Camel Framework in Java
- Implemented serializing and deserializing to/from XML and JSON objects for communication between applications that leveraged ActiveMQ, IBM WebSphere MQ, FTP
- Designed and implemented a health monitoring solution for JBoss Fuse instances, SQL databases, Spring Boot APIs, and AMQ queues
- Created and maintanied web services, integrations, user interfaces, etc deployed on various platforms including WebLogic, Heroku, Netlify, Mobile Platforms, JBoss Fuse
- Developed multiple portfolio web apps using React, Javascript, Next.js, and deployed using cloud platform Netlify with custom domains and https
- Created React Native IOS applications with Spring Boot APIs, SQL databases, including user accounts, search and autocomplete functionality, JWT authorization, SMTP communication, encryption/decryption, and more
- Developed Angular applications with similar stack, including PayPal integrations

ACTIVITIES

- Passionate about traveling and exploring new cultures
- Experienced food lover and adventurous in trying new cuisines
- Enjoys the thrill of mountain biking in the great outdoors
- Skilled at skiing
- A fan of video games
